Re: Petition for Rule Making
Jacksonville, Texas (Channel 236A)

Dear Ms. Dortch:

Enclosed is an original and four (4) copies of my
Petition for Rule Making for the new allotment, Channel
236A, at Jacksonville, Texas.

Respectfully submitted,

Linda Crawford

In the Matter of)
)
Amendment of 73.202 (b)) MB Docket No. _____
Table of Allotments)
FM Broadcast Stations)
(Jacksonville, Texas))

To: John Karousos, Assistant Chief
Audio Division of the
Media Bureau

PETITION FOR RULE MAKING

Pursuant to 47 C.F.R. 1.401, Linda Crawford
respectfully petitions the FCC to institute a Rule Making
proceeding to amend the FM Table of Allotments to add
Channel 236A at Jacksonville, Texas.

DISCUSSION

Petitioner respectfully submits that the public
interest would be served by allocating Channel 236A to
Jacksonville, Texas as that community's second competing FM
service. Jacksonville, Texas is an incorporated community
with a population of 13,868 people.¹ Jacksonville has its
own mayor, post office, independent school system, fire
department, city offices and a number of local churches.

¹ Source, Texas Almanac 2002/2003

Jacksonville is a community that is certainly deserving of a second competing FM service. The proposed channel 236A will provide additional diversity and an outlet for local self-expression to Jacksonville residents and therefore is in the public interest.

In order for Channel 236A to be allotted to Jacksonville, the reference coordinates for the vacant allotment at Teague, Texas will need to be moved approximately 2.76 km northwest and the vacant allotment for Channel 237A at Meridian, Texas will need to be moved approximately 3.05 km northwest. Note: 237C3/ Teague, Texas and 237A/ Meridian, Texas were allotted per Report & Order, DA 04-3334, released October 25, 2004.

The proposed changes are:

	<u>Current</u>	<u>Proposed</u>
Jacksonville, TX	-----	236A
Teague, TX	237C3	237C3
Meridian, TX	237A	237A

Attached hereto is a channel study confirming that Channel 236A can be allocated to Jacksonville, Texas, consistent with the FCC's FM separation rules provided the change is made at Teague. See revision of FM Assignment Policies and Procedures, 90 FCC 2d 88 (1992). (See, Attachment A)

Reference coordinates for 236A at Jacksonville, Texas are:

31 54 15 N
95 17 42 W

In order for Channel 236A to be allotted to Jacksonville, Texas, the reference coordinates for Channel 237C3, the vacant allotment at Teague, Texas, must be moved approximately 2.76 km northwest. Attached hereto is a channel study confirming that the reference coordinates for Channel 237C3 at Teague, Texas can be moved 2.76 km northwest consistent with the FCC's FM separation rules. See revision of FM Assignment Policies and Procedures, 90 FCC 2d 88 (1992). (See, Attachment B) New reference coordinates for 237C3 at Teague, Texas are:

31 48 30 N
96 14 00 W

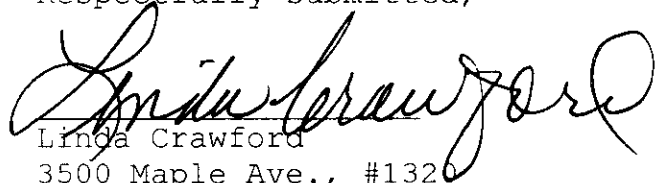

In order for the reference coordinates for the vacant allotment Channel 237C3 at Teague, Texas to be moved approximately 2.76 km northwest, the reference coordinates for the vacant allotment Channel 237A at Meridian, Texas must be moved approximately 3.05 km northwest. Attached hereto is a channel study confirming that the reference coordinates for Channel 237A at Meridian, Texas can be moved 3.05 km northwest consistent with the FCC's FM separation rules. See revision of FM Assignment Policies and Procedures, 90 FCC 2d 88 (1992). (See, Attachment C) New reference coordinates for 237A at Meridian, Texas are:

32 00 00 N
97 43 00 W

Should this petition be granted and Channel 236A is allotted to Jacksonville, Texas, Petitioner will apply for Channel 236A at Jacksonville and after it is authorized, will promptly construct the new facility.

The factual information provided in this Petition for Rule Making is correct and true to the best of my knowledge.

Respectfully submitted,

Linda Crawford
3500 Maple Ave., #1320
